Re: *Headwater Research LLC v. Samsung Electronics Co., Ltd. et al.*, Case No. 2:23-cv-00103 (E.D. Tex.)

Dear Counsel:

Samsung Electronics Co., Ltd. (“**Samsung**”) has filed petition for *inter partes* review (IPR) petition (IPR2024-00341) with the Patent Trial and Appeal Board (PTAB) to address the validity of claims 1-17, 19, 21-27, 29, and 30 of U.S. Patent No. 8,406,733 (“**the ’733 Patent**”). The tables in attached Appendix A list all grounds, challenged claims, and references asserted in IPR2024-00341.

I write to inform you that Samsung hereby stipulates that, if the PTAB institutes IPR2024-00341, Samsung agrees not to pursue any grounds raised in the IPR, any grounds raised within Samsung’s invalidity contentions that were raised or could have been raised in the IPR, or any grounds Samsung could have reasonably raised before the PTAB, in this district court litigation, or any parallel proceeding. *Sotera Wireless, Inc. v. Masimo Corp.*, Case IPR2020-01019, Paper 12 (PTAB Dec. 1, 2020). **Samsung reserves the right to assert in the District Court proceedings prior art that is not eligible for PTAB consideration, e.g., the system art noted in Appendix B below and the system art identified in Samsung’s invalidity contentions.**¹ Samsung’s reservation is consistent with a *Sotera* stipulation because the grounds listed in Appendix B are based on prior art that is ineligible for consideration before the PTAB, and that could not have been raised before the PTAB.

¹ Samsung notes that discovery in the District Court proceedings is currently ongoing and Samsung expects Google, Apple, Blackberry, OpenWave, Nokia, and Microsoft to produce additional materials and/or testimony relating to the system art listed in Appendix B below. For the avoidance of doubt, Samsung reserves the right to rely on such forthcoming productions in the District Court proceedings.

For the sake of clarity and to avoid any doubt, if the PTAB declines to institute IPR2024-00341, Samsung reserves the right to assert any grounds of invalidity in the District Court proceedings against the '733 Patent.

Sincerely,

A handwritten signature in black ink, appearing to read "Thad Kodish". The signature is fluid and cursive, with the first and last names being more prominent.
